Lagos, Nigeria

PROFILE

Product-driven full-stack engineer with a track record of shipping performant web apps, teaching, and collaborating with small teams. I move fast with high quality, communicate clearly, and focus on business impact. Background in Geology with strong analytical thinking and resilience proven through self-funded studies and entrepreneurial projects.

CORE SKILLS

STRENGTHS

- Rapid delivery with clean, maintainable code
- Clear communication and teaching ability
- Ownership mindset and product sense
- Adaptable and resilient under constraints

EXPERIENCE

Full-Stack Engineer — Yano School Site

Remote • 2023 — Present

- Designed and built a modern school portal for enrollment, content, and announcements.
- Implemented responsive UI with Next.js and Tailwind; improved page performance scores to 90+.
- Integrated Supabase for auth, storage, and relational data with role-based access.

Junior Full-Stack Developer — Nigeria Sugar Development Council (NSDC)

Abuja • May 2022 (1 month)

- Contributed to the official NSDC site across frontend and backend features.
- Collaborated in a small team to deliver secure forms, content tooling, and deploys.

Frontend Engineer — G47 Hairs (Salon Site)

Remote • 2022

- Built a responsive salon website with service listings, photo gallery, and booking flow.
- Implemented SEO basics and performance optimizations improving Core Web Vitals.

Frontend Engineer — Deluxe Store (E-commerce)

Remote • 2025

- Implemented product listing, cart, and checkout UX; elevated conversion through improved performance.
- Built testimonial section and merchandising pages with reusable components.

Full-Stack Engineer — Driven (Startup)

Remote • 2024

- Early-stage product work on a startup that later wound down; delivered MVP features and learned from rapid iteration.

Freelance & Teaching

Delta State • 2022 — Present

- Built and maintained React/Next.js apps for schools, small businesses, and blogs.
- English & Geography Teacher (2023): strengthened communication and mentorship skills.

SELECTED PROJECTS

- **Online Exam Portal** — role-based exams, analytics, and secure proctoring adopted by schools.
- **Condo** — personal tech blog project; sunset after learnings on product-market fit.

EDUCATION

FUPRE — B.Sc. Geology Effurun, Delta State • Graduated 2024
Thesis: Study of Lignite Deposits in Obomkpa, Asaba

LEADERSHIP & IMPACT

- Self-funded education through entrepreneurship (Uber) while completing research and studies.
- Mentored peers on balancing academics with work; led small teams to ship.
