■ Lagos, Nigeria

## Education

**Federal University of Petroleum Resources, Effurun (FUPRE), Delta State, Nigeria**

B.Sc. in Geology | Graduated 2024

Thesis: *Study of Lignite Deposits in Obomkpa, Asaba*

Coursework: Energy Resources, Mineral Exploration, Environmental Geology

## Research & Academic Experience

**Undergraduate Thesis Research – Obomkpa, Asaba (2024)**

Conducted geological field surveys and analysis of lignite deposits, contributing to understanding Nigeria's energy potential.

## Professional Experience

**Nigerian Geological Survey Agency – Abuja, Nigeria**

Intern | 2023

• Supported national geological data management and survey efforts.

• Assisted survey teams with mineral mapping and reporting.

**Teaching Roles – Delta State, Nigeria**

English & Geography Teacher | 2023

• Taught secondary school students English and Geography.

• Strengthened communication and mentoring abilities while fostering student engagement.

**Self-Employed (Uber Driver) – Warri, Nigeria**

Driver/Entrepreneur | 2023–2024

• Balanced full-time driving with thesis research and final-year studies.

• Demonstrated resilience, adaptability, and financial independence.

**Junior Full-Stack Developer – Nigeria Sugar Development Council (NSDC)**

Contract Role | 2023

• Contributed to building and maintaining the official NSDC website.

• Collaborated with a small dev team on frontend and backend features.

**Freelance & Startup Projects** | 2022–Present

• Worked with several tech startups delivering scalable React/Next.js web apps.

• Designed and developed an **online exam portal** widely adopted in schools.

• Founded and launched **Condo**, a personal tech blog project. Although it eventually failed, it provided valuable lessons in entrepreneurship, product design, and persistence.

## Skills

• Geological Fieldwork & Surveying

• Research & Data Analysis

• Full-Stack Web Development (React, Next.js, TypeScript, Tailwind, Supabase)

• Problem-Solving & Adaptability

• Communication, Teaching & Leadership

## Leadership & Community Impact

• Inspired peers by financing education through self-employment.

• Encouraged fellow students by sharing strategies for balancing academics and financial challenges.

• Gained entrepreneurial resilience through building, launching, and learning from successful and failed tech projects.
